ANTONIO CUCCU
software engineer

PROFILE

I'm Antonio Cuccu, a software engineer living in New York. Born in Italy, I pursued a formation in logic and epistemology that primed me for a systematic approach to the understanding of abstract structures and concepts, while endowing me with the ability to communicate clearly and concisely

EXPERIENCE

2016-2019
Gotham Coach
Co-Founder

Co-founded a premiere life and career coaching service, catering to business leaders and media personalities

Implemented company infrastructure, supervised management at every level of the company, and in less than two years created a client base of more than 50 clients

2012-2016
TitleVest
Quality Control Analyst

Helped formalize the workflow for seven departments, and developed systems to track the status of more than 1,000 files per week, to assure their timely and accurate completion

Created the in-house style guide for all official communication

2012 (contract)
Glass Lewis & Co
Research Assistant

Researched the Italian market for one of the most prominent proxy advisory services in the world. Investigated and documented the scandal around the takeover of Fondiaria - SAI by Unipol, two of Italy's largest insurance providers

2010 (contract)
Lacanian Ink
Assistant Editor

Followed all steps of design (in InDesign), production, and distribution for volume 36 of the only American Lacanian psychoanalytic journal

2007
Zagorka Technical Solutions
Technical Writer

Wrote, edited, and organized documentation for the turbine water cooling system for the core of the Maritsa Iztok-1, a Bulgarian nuclear plant
